Community Hall Co. Hall Anniversary Annual Meeting Celebrated

The annual shareholders meeting of the Champion Community Hall Ltd. was held in the hall on Saturday March 1, at two o'clock. A very large number of shareholders were present.

All the reports required by the companies act were presented to the meeting, and on motions duly seconded, were accepted.

The financial statement and balance sheet were then presented to the meeting, and after discussion were unanimously adopted.

A resolution of thanks to the retiring directors and officers for their services for the past year, was carried unanimously.

The following were elected as directors for the ensuing year: G. F. Smith H. E. Gill, A. Hopkins, T. Sletto and F. W. Clever.

After the adjournment of the shareholders meeting, a meeting of the directors was held. G. F. Smith was elected president, H. E. Gill, managing director and H. Cooper was appointed secretary treasurer.

The Ladies' Aid met on Thursday at the home of Mrs. Woodhull. Mrs. Ulrich and Mrs. McLeod served refreshments. The ladies decided to serve afternoon teas during the month of March, an Easter tea, including a handkerchief bazaar, sale of house plants and slips, also home-made candy. The latter will be held in the banquet room of the Community Hall on April 19th, in the afternoon. The next meeting will be held at the home of Mrs. W. S. Ryan, when Mrs. Woodhull and Mrs. Williamson will serve the refreshments.

A pie social was held Thursday Feb. 28th in the Sanderson school, songs, monologues, recitations and pantomime were given in good style. Rev. S. Hunt showed lantern slides on the life of Jesus which was instructive and interesting. The pies sold for \$15.75 which is used for church work. C. D. Brooks was the auctioneer. Refreshments were served at the close of an enjoyable evening.

Delmar and Franklin Cool returned last week from an extended visit to their old home near Chicago and relatives in that city. They report an extremely pleasant visit and also that Chicago is not just as dangerous to the ordinary citizen as press reports would indicate.

P. P. Peterson is holding an auction sale of his farm equipment, live stock and household effects on Wednesday, March 12th. As Mr. Peterson is leaving the farm for the present everything is being sold, and it would be well for everyone desiring anything in the line to keep the date in mind.

T. Geddes is holding an auction sale on Friday, March 14th, notice of which appears elsewhere in this issue. A. Hopkins is the auctioneer.

A. Visser was a visitor in town on Wednesday and Thursday in connection with his affairs.

Mr. and Mrs. W. F. Bosarth and Mr. and Mrs. J. M. Moffatt were guests at the Shriners' ball on Wednesday night.

The first anniversary of the official opening of the Community Hall was celebrated on Friday evening, Feb. 28th, by practically a repetition of the opening entertainment. The Len Davis orchestra supplied the music and dancing was naturally the outstanding order of the evening, while those who chose played cards in the club room. Refreshments were supplied by the Women's Institute in a very acceptable manner. Conflicting attractions interfered seriously with the attendance, which fell below expectations. On the whole, however, a very pleasant evening resulted, and had more notice been possible a record crowd would have been on hand.

The ladies of the Royal Purple entertained members of the Elks lodge and their friends to a banquet and social evening in the Community Hall after the regular meeting on Tuesday night. The tables were beautifully decorated with flowers, with the shining silver, candles etc, made a display which was only excelled by the bountiful supply of good things served. The occasion was thoroughly enjoyed and the Royal Purple won golden opinions as to their capacity as hostesses.

The regular monthly meeting of the Women's Institute will be held at the home of Mrs. B. Woodhull on Tuesday March 11th. The roll call will be answered with Canadian Authors. Mrs. A. T. Martin of Vulcan, Constituency Convener, in the speaker for the afternoon and Dr. Heal will also address the meeting on "Preventative Dentistry." All ladies are welcome and members are particularly requested to meet punctually at 2:30 p.m. Mrs. F. Caldwell, refreshment convener.

Mr. and Mrs. Howard Hammell left on Wednesday for Carstairs, where Mr. Hammell will go into the general store business for himself. They have resided here for the past five years and have made many friends who will wish them success in their new venture.

Messrs. Milfin and Patterson are holding an auction sale of all their farm effects on Monday, March 17th. The list is a large one and will undoubtedly attract buyers. Further particulars on bills.

Three prizes will be given at the Eastern Star dance on March 11th, the major prize being a Shamrock henn. This will be the last dance of the season before seedling, so don't miss it. Lunch will be served in the basement at 25c per plate.

Under the auspices of the Young People's Society a St. Patrick's tea will be held in the home of Mrs. G. M. Campbell on Saturday, March 15th, from 2:30 to 6:00 p.m. The proceeds will be devoted to the tennis court in contemplation.

On Thursday evening, Feb. 27th, at 907, 6th Ave. West, Calgary, the residence of the bridegroom's sister, Mrs. F. Broughton, Miss Mona Porter became the bride of Albert Brett, both the principals being from Champion. Miss May Brett attended the bride as matron of honor, and Mr. Fred Broughton was best man. The bride wore a frock of pink tulle with and carried a shower bouquet of pink and white carnations. After the ceremony supper was served, the tables being decorated with red carnations. The evening was spent in dancing and singing.

NOTES AND COMMENT.

While there appears to be a general desire to conclude the cases against the brokerage houses now pending, some of the reasons are not of a character to recommend themselves to the general public. According to statements appearing in the press it would appear that the brokerage houses have been financing both mines and oil wells to a very considerable extent and that the withdrawal of this support is causing distress through the dismissal of employees and lack of capital to continue both mining and oil projects. Taken at par this statement would appear to indicate that there is need of a complete housecleaning before normal business in stocks is resumed.

Saskatchewan United Farmers are now out for political action and a compulsory wheat pool. Enthusiasm along these lines has been bottled up so long that activities should boom now that official sanction has been secured.

The United States tariff is likely to pass the senate at any time and then goes back to the house of representatives. The making of a new tariff is certainly a matter of moment in the republic to the south, when nearly a year of labor is required to complete it.

The Lowery Petroleum Co.'s well in Turner Valley has blown in with a gas production estimated at 30,000,000 feet, and promises to be one of the big gas producers in the Valley. This should help in boosting the sinking price of the oil shares.

Despite the unsatisfactory condition of the wheat market it would appear that the movement towards power farming will make very considerable progress during the present year. The implement men are ready for the expected demand for engines and it is expected many changes from horse power to tractors will be made in the near future.

The premiers of the three western provinces are satisfied the wheat pool has been conducted properly in every way. The man who held his wheat until this spring was also assisting in orderly marketing but like members of the pool he is likely to take the short end of the price this year. Why not admit both pool and individuals have made a bad mistake and let the matter go at that? The man who sold his wheat last fall is sitting easy, while pool members and individual farmers holding wheat for a bigger price are in a mighty anxious mood. It will take a real big price to make up for the disturbance to business and the anxiety caused by falling prices to everyone concerned.

The anniversary of the for-

mal opening of the Community Hall found everyone concerned in its building more than satisfied with the results obtained. That it has already been of great service to the community is freely admitted, in fact one is inclined to wonder how we ever got along without it. Whatever sacrifices by individuals were included in its building have been more than justified.

The U.F.A. locals adjacent to Champion are intrigued with the idea that a big saving can be made in the purchase of fuel and lubricating oil by co-operative purchasing. Statements made in connection with the possible price seem to justify their action. Doubtless every precaution will be taken to make sure of the ground before action is taken which cannot be recalled.

Preparations for spring are getting more in evidence every nice day. To judge from what may be picked up from the farmers there is little inclination to reduce wheat acreage this year, despite predictions of lower prices.

The proprietor of the Savoy Hotel refused to renew his insurance unless a revision of the rate was made. As the amount involved was large the companies concerned got busy with the result that the rate on the whole side of the street was reduced 50 cents per hundred dollars on a portion thereof. The entire saving would amount to several hundred dollars. Its a good thing to have somebody in the community who is wide awake enough to look after such things.

A Strike Incident

During the recent strike in England the volunteer driver of the London-Liverpool express performed the miraculous feat of bringing the great train into Liverpool twenty-five minutes ahead of schedule time. The passengers went forward in a body to thank him. A pale green face emerged from the cab. "Don't thank me," it gasped; "thank God; I only found out how to stop this thing 10 minutes ago."

Opportunities Of A Lifetime

Interesting Tours Arranged For
Attendants At Poultry
Congress

The opportunity of a lifetime is really what is offered in the post-Congress tours which have been arranged to follow the closing session of the Fourth World Poultry Congress, to be held in Old London, England, July 22nd to 30th this year. Two tours have been arranged, one following the other. The first starts July 31, and takes one through the historic, storied and scenic wonders of the British Isles. The Shaker spaire country, North Wales, Dublin, with its Rocky Road, the Irish Free State, youngest of the British Dominions; Cork and the lovely lakes of Killarney; the Giant's Causeway, and, of course, the Harney Stone will be on the route. Crossing again to Scotland, Glasgow and the Burns country is viewed; the Trossachs, Edinburgh, the Firth of Clyde, and the Firth of Forth. Glasgow and the Burns country is viewed; the Trossachs, Edinburgh, the Firth of Clyde, and the Firth of Forth. Glasgow and the Burns country is viewed; the Trossachs, Edinburgh, the Firth of Clyde, and the Firth of Forth.

Those who come to the visit to the continent which begins with a twenty-four hour stay at Brussels. From Brussels the party proceeds to the lovely Rhine Valley country, passing on the way that river the historic cities of Cologne, with its cathedral and Bonn with its world-famous universities, both places which were held by troops of Napoleon, with its cathedral and Bonn with its world-famous universities, both places which were held by troops of Napoleon, with its cathedral and Bonn with its world-famous universities, both places which were held by troops of Napoleon.

The Paris visit may be cut in half for those desiring to do so, while the tour of the battlefields of the Great War. To most of the party this visit to the battlefields will be the climax of what all will regard as truly the opportunity of a lifetime.

Origin Of Word "Britain"
Evolved From "Pretaine" Used By
Pythians Centuries Ago

In private study class in Charlottetown, Prince Edward Island, an interesting discussion was had on the question of how the name of Great Britain originated. We speak of Britannia, Britain, the British Isles, the British Empire and so on, but how and when did the name of Britain, from which all those words and phrases were evolved come into use? After much research the class were informed that Britain had no name until Pythians, 21 centuries ago, seeing its painted people, wrote it as the Pretaine Isles (the Isle of Painted Men.)

Heart and Nerves Caused Her To Have Cold Hands and Feet

Mrs. Joseph Price, Red Pine, N.B., writes: "Several years ago I was troubled with my heart and nerves and was so bad, at times, my hands and feet would become numb and cold."

I happened to see

MILBURN'S
HEART
WAVE-PILL

advertised and started taking them at once. I continued for some little time, and then I have had no return of my trouble. Price, \$3.00 a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Does Not Help Much
Diets change. People used to eat to appease their appetites. Now they eat this for calories and that for vitamins. A chicken sandwich would be two slices of bread and a slice of chicken. Now a couple of leaves of lettuce must be stuck in between the meat and the bread. Of course, it is better, but people still die too young.

Purified Fuel Plant
The Government of British Columbia has set aside the sum of \$12,000 to place a purified fuel plant in one of the larger coastal towns, to experiment with the use of purified British Columbia coal in man's work.

They call her Missy Lena, 'cause she's the Paclat girl in town.

"Curse Of The Pharaohs"

Superstition Has Been Revived With
Death Of Lord Westbury

The legendary "Curse of the Pharaohs" placed on despoilers of ancient Egyptian tombs and those connected with them was recalled when 77-year-old Lord Westbury went temporarily insane and leapt 100 feet from his bathroom window. The peer, grandson of Queen Victoria's noted Lord Chamberlain, fell seven stories, crashing through the glass roof of a veranda and knocking down a charwoman who was cut and bruised. He died instantly.

Lord Westbury had brooded over the death, less than three months ago, of his son, the Hon. Richard Bethell, 46, who died, apparently in his sleep, in a room at a club. Richard had been secretary to Howard Carter, who excavated the tomb of Pharaoh Tut Ankh-Amen, about 30 years ago.

Several Egyptian art works given him by Richard were in the apartment from which Lord Westbury fell to his death. The "Pharaohs' curse," symbolized by the beetle or scarabaeus began to take effect soon after King Tut's tomb was discovered. One person after another died suddenly or mysteriously, so that even scoffers at superstition began to wonder whether the curse might not be real.

Lord Carnarvon died of an insect bite received just as his expedition was ready to leave the tomb. The Hon. Aubrey Herbert, his half-brother, died later.

Fourteen deaths, including that of Lord Westbury, have been attributed by the superstitious to the famous curse.

Winnipeg Newspaper Union
Festivities
(By Anabelle Worthington)

The Paris visit may be cut in half for those desiring to do so, while the tour of the battlefields of the Great War. To most of the party this visit to the battlefields will be the climax of what all will regard as truly the opportunity of a lifetime.

Recipes For This Week
(By Betty Barclay)

MANHATTAN PUDDING

1 1/2 cups orange juice.
1 1/2 cup lemon juice.
1 1/2 cups powdered sugar.
2 cup heavy cream.
2 cups chopped burnt almonds.
1 teaspoon vanilla.

1 cup cooked beets.
3 tablespoons horseradish.
2 teaspoons powdered sugar.
1 teaspoon salt.
4 tablespoons lemon juice.

Chop the beets, which should be cold, and add other ingredients. Serve with cold sliced meat.

BEEF RELISH

1 cup cooked beets.
3 tablespoons horseradish.
2 teaspoons powdered sugar.
1 teaspoon salt.
4 tablespoons lemon juice.

Chop the beets, which should be cold, and add other ingredients. Serve with cold sliced meat.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE
THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour acid stomach? Many believe they have heart trouble and tremble with fear, expecting death. This condition can be prevented, likewise relieved. Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomachy, hiccups, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c box of Carter's Little Liver Pills.

"Speaking Book" Demonstrated

Different System Of Recording Sound
Has Been Discovered

What is practically a "speaking book" was demonstrated recently. It consists of an apparatus designed to bring literature to the ear instead of to the eye, and the system of recording sound differs from others, use being made either of a thin steel wire or for synchronization purposes — a steel tape. Speech and music can now be bolded and preserved. One person for years, simply by using a coil of wire that can be folded and placed in a wastebasket pocket. The instrument is simple. The wire, or metal strip, is contained on spools. The recorder speaks into a microphone, and as the wire passes through the magnet, the sound is impressed on it by electromagnetic means. Sounds impressed on the wire will not wear off; any number of "copies" can be made and there is no limit to the possible length of the record. Entire plays, operas, speeches and so on can now be reproduced.

SUNDAY SCHOOL LESSON

MARCH 9
THE PARABLE OF THE SOWER

Golden Text: "He that hath ears to hear, let him hear." — Matthew 13:9.
Lesson: Matthew 13:1-23.
Devotional Reading: Proverbs 3:1-18.

Explanations and Comments

The Parable Of The Sower, a Study In Soils, verses 1-8.—One day a great crowd gathered around Jesus on the shore of the Sea of Galilee that He entered a fishing boat. When full enough from the multitude to be free from their opportunities, yet enough to address them, He taught them many things in parables. The word "parable," "para" besided and "ballein," to throw, and means literally "to place side by side," hence to "compare." A parable is a short, fictitious narrative of something which might really occur in life or nature by means of which a moral is drawn. An excellent definition of a parable as given by a writer of the 19th century: "A narrative, fictitious, but agreeable to the laws and usage of human life, which either the duties of men or the things of God, particularly the history of Christ, are figuratively portrayed."

The view of the Sower as He spoke His parable of the Sower, has never been a sower at work in a cornfield which descended into a water's edge. Dean Stanley describes the sower as a man who, with a broad pathway running through the midst of the waving wheat, the sower went the seed from falling here or there on either side of it or upon it. The sower, with the crown of thorns, hump, and hump, there was the seed in the soil; there was the rocky ground on the hillside protruding from the soil; there was the hard ground; there were the large bushes of thorn—the "brake," the kind of which was common in the country. The sower was "sowing" into the very midst of the waving wheat.

A sower was sowing seed, so run the parable. He lived in a hamlet or village, as all farmers do now in Palestine, and went to the unfenced field after oil to sow his seed. Some of it fell on the beaten path which ran through the field and lay there on top of the hard surface till birds devoured it. Some of the seeds fell on the hard side where the underlying rock came very near the surface; the soil there was shallow and the waving wheat, the rock made the seed spring up quickly and wither, promising nothing. The roots of the plants could not strike the soil and avoid the rock. The soil was rich and deep and free from thorns, and it was the best soil and even a hundredfold. He that hath ears to hear—this Jesus ended the parable.

Manitoba To Celebrate
The 60th anniversary of Manitoba's entry into Confederation will probably be made the outstanding feature of the Provincial Exhibition at Brandon this year. A pageant representing historical events and other extra attractions are under consideration by the directors.

Car Salesman: "Our cars no good?"
Private: "Sure. He's the fellow who's always ready to lay down your life for his country."

Prospective Buyer: "I'm not surprised. How many are they a dozen?"

DR. J. C. L. BAIN
BRAIN STOPS LINE FLASH!
"Bain's Brain Stopping Line Flash" is a new and powerful remedy for the treatment of all cases of epilepsy, hysteria, and other nervous disorders. It is a pure and safe medicine, and its use is recommended by the highest medical authorities.

Stronger Than The Empire
Commonwealth Of Nations Has Been
Wonderful Step Forward

Probably few British statesmen fifty years ago believed that the disintegrating of the Empire could go as far as it already has gone without disaster. Certainly, most statesmen of other countries agreed with Bismarck, who thought that the yielding of power by the central authority was a sure sign of weakness and decay. If he could have seen the Canadians holding out under the mysterious horrors of the first gas attack, or the Australians helping to smash the Hindenburg line, he might have changed his mind. To date, the ties created by sentiment and enlightened self-interest have more than paid the bands of compulsion laid aside as outworn. The Commonwealth of Nations is stronger than the Empire.

Making Plans For Congress

Dalynen Of World To Meet In Denmark Next Year

The International Dairy Congress which was planned to take place in Denmark in July, 1921, is to be held under the patronage of His Majesty King Christian X. and with the present Danish Minister of Agriculture, Mr. Kr. Bording, and the former Danish Prime Minister and Minister of Agriculture, Mr. Madsen-Mogensen, as Honorary Presidents. The invitations to participate in this Congress are extended by the Danish Dairy Industry to all countries. Like the preceding International Dairy Congress, this Congress is going to be held under the auspices of the International Dairy Federation, and this Congress will be organized by the Danish section of the said Federation and the Organizations of the Danish Dairy Industry in cooperation with the Danish Government.

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARNES SUNDRIES ETC.

WINDOLITE
THE ORIGINAL GLASS SUBSTITUTE
MADE IN ENGLAND SINCE 1911 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.
51 Wellington St. W. TORONTO, ONT.

WORLD HAPPENINGS BRIEFLY TOLD

The ships of the Byrd Antarctic Expedition, bringing Admiral Richard E. Byrd and his men home from their base on the Ross Ice Barrier, are expected to arrive at New York about the first week in June.

Residents of the South Australian village of Chicago, have been sending about the other Chicago, and so they voted to change the name of their city to Booth, in honor of the late General Brannwell Booth, for years head of the Salvation Army.

Courses of instruction for non-commissioned officers and constables of Royal Canadian Mounted Police, in methods of combating narcotic smuggling are expected to give good results, according to reports of the force tabbed in the Commons.

Dr. J. W. Shipley, for 31 years professor of chemistry at the University of Manitoba, has been appointed head of the Department of Chemistry, at the University of Alberta. He will take up his new duties at Edmonton in the fall.

Negotiations with the Canadian Government for the removal of the embargo on British potatoes have not proved successful, announced the Rt. Hon. Noel Buxton, Minister of Agriculture, in the British House of Commons, London, England.

A bill aiming to prevent criminal proceedings for so-called religious blasphemy, heresy and atheism has been withdrawn by its sponsor as result of the British Government insisting on a safeguarding clause as the price of its support.

A request that the eleventh day of November in each year be set apart as a national holiday and a day of remembrance entirely separate from Thanksgiving Day is being placed before Parliament by the Canadian Legion of the British Empire Service League.

Making Long Journey

Turkey From Alberta On Way To West Indies

A turkey from the farm flock of Mrs. R. Lockhart, Bowden, Alberta, is on his way to his new home in the West Indies, having been shipped to the Misses Boyd Stimpson, of Porus, Jamaica, reports G. M. Cornie, Alberta's poultry commissioner.

This bird was selected by R. S. Johnson, president of the Alberta Branch Turkey Breeders' Association, and shipped to Halifax, where he was loaded on shipboard for his destination. A special crate was constructed to carry the feet and water required by the turkey during his five-thousand-mile trip.

We are not much of a cook, but we do know better than to boil two cups of rice for two people.

ESTIMATES FOR DOMINION REACH LARGE TOTAL

Ottawa.—At the opening of the afternoon sitting of the House of Commons the estimates were introduced. Hon. C. A. Dunning immediately moved that they be referred to the committee of supply.

The total amount provided is \$290,530,187, as compared with \$401,243,140.40 for the current fiscal year, a decrease of \$158,708,252.

The principal increases are on account of aviation, public works, income, pensions and national health, post office, public works capital and marine department capital.

The services showing the largest decrease are interest on public debts, immigration and colonization, soldier and general land settlement, ocean and river service, railways and public works capital and adjustment of war claims.

Public works income is included at \$25,139,570, an increase of \$2,201,081. The requirements of the post office are set at \$7,536,369, an increase of \$2,145,783, mainly for salaries and mail service by air.

The provision for public works capital is \$8,500,000, an increase of \$1,700,000, occasioned by larger items for the national research council laboratories, Burlington Channel improvements, the lower St. Lawrence at Prescott, and channel improvements in the upper St. Lawrence river.

An amount of \$5,800,000 is provided for the capital requirements of the marine department. This is an increase of \$1,522,250 over the current year, covering increased estimates for the river St. Lawrence ship channel and the maintenance of the Sorel shipyard.

The amount required to pay interest on public debt of the Dominion is \$119,535,478, a decrease under the amount for the current year of \$2,257,014, reflecting the effect of payment of funded debt from current revenues.

The expenses connected with ocean and river service are estimated at \$4,015,550, a decrease of \$2,254,804, due to appropriations of the current fiscal year which are not required for 1930-31.

The estimate for railways and canal capital is \$15,279,500, a decrease of \$3,749,943, due to smaller requirements for the Hudson Bay Railway and the Western Canadian.

The total provision for adjustment of war claims is \$622,500, a decrease of \$4,222,820 under the requirements for the current fiscal year, caused by the smaller amount required for payment of claims for losses sustained by the civil population of Canada during the Great War.

The estimate of the amount required to pay pensions on account of the Great War is \$1,000,000. The provision is made under railways and canal capital for a new car ferry between Prince Edward Island and the mainland \$2,800,000, Hudson Bay Railway and terminals \$5,000,000 and Welland ship canal \$7,600,000.

The large items under public works capital are for the Confederation building \$1,200,000, the National Research Council laboratories \$1,500,000, Burlington channel improvements \$1,000,000, and the lower lakes terminals at Prescott \$3,100,000.

Public works income includes items for the postal terminal building at Montreal, \$400,000; Toronto customs house, \$1,600,000; Calgary public building \$1,000,000 and addition to the Edmonton public building, \$400,000, and Saskatchewan public building, \$445,000.

The department of fisheries is planning to investigate the fisheries of Hudson Bay. Estimates tabled in the House of Commons provide the sum of \$65,000 for this purpose. This is a new vote.

Australia Recalls Trade Commissioner

Government Displeased By Speech He Made Is Report

Sydney, Aus.—Australia's trade commissioner at Ottawa, R. A. Haynes, has been recalled by the Commonwealth Government as a result of a speech he delivered in Canada, it is understood.

The Australian Government is said to have been displeased by alleged references of Mr. Haynes to more peaceful conditions in Canadian industry than in Australian industry. The Federal Government is said to have considered that such utterances were harmful to the Commonwealth's prestige abroad.

Asks Tighter Motor Laws

Bill Introduced in Federal House By T. L. Church

Ottawa, Ont.—"Hit and run" drivers especially will be subject to drastic punishment if a bill introduced in the House of Commons by T. L. Church (Cons., Toronto Northwest), becomes law.

The penalty of death for murder is proposed for causing the death of any person by reckless or negligent or furious driving and failure to render aid and reporting the accident.

Two years' imprisonment, or a fine or both that and imprisonment are suggested for reckless driving.

Five years' imprisonment and a fine for driving an automobile in a manner dangerous to the public are proposed for causing an accident as a result of reckless driving.

Five years' imprisonment and a fine for failing to stop and render aid and particulars to an ownership of car when an injury is caused by dangerous driving are suggested.

BRISKER DEMAND FOR POOL WHEAT IS ANTICIPATED

Montreal.—As a result of conferences held in London between representatives of the Wheat Pool, the British Government and the British Milling Association, there is the strongest reason to believe that purchases of Canadian Wheat in future will not only be increased but will be made in an orderly manner covering the entire year.

A. J. McPhail and W. A. McLeod, the Wheat Pool representatives who conferred with the British Government, declined to be quoted in regard to their mission. Neither would they issue any statement except a brief note dealing with the conference.

It was noted by H. J. A. Thomas, this note is couched in very definite language. Informally, it was learned that the conference in London failed to achieve the results anticipated by Mr. Thomas while in Canada last autumn.

Mr. Thomas had a plan whereby the export movement of wheat to Great Britain could be regulated. In the past the export of wheat has been irregular in London failed to achieve the results anticipated by Mr. Thomas while in Canada last autumn.

Insurance For Canada's Unemployed Predicted

Premier King Hopes Plan Will Soon Be Worked Out

Ottawa, Ont.—Eventually Canada will have a system of unemployment insurance, Premier Mackenzie King predicted, in reply to a deputation seeking Federal aid to municipalities and provinces on unemployment relief. This, he said, was the only constructive way to deal with the unemployment situation and he hoped it would soon be possible to work out an insurance plan.

Seasonal measures in the way of relief and public works were of no permanent assistance, and an insurance plan offered the only constructive way of avoiding distress. Under it those who expected relief and those who employed them would be compelled to contribute to a fund during their periods of employment, and would receive benefits when out of work.

While efforts had apparently been made by Mayor Webb, of Winnipeg, pursuant to the decision of the recent conference on unemployment in the Manitoba capital, to secure representation from all parts of the country on the delegation which recently presented the case for unemployment relief, it was significant that the large majority of the Western Canada were represented.

Left Fortune To Charity
Late W. F. Alloway Bequeaths Huge Amount To Foundation

Winnipeg.—The Winnipeg Foundation, a charitable institution, is bequeathed \$120,000 by the will of the late Mr. W. F. Alloway, who left an estate of \$124,000. The sum of \$120,000 is set aside for the purpose of paying the income to certain relatives of Mr. Alloway and his personal servant. On the death of a beneficiary the income reverts to the Foundation.

During his lifetime Mr. Alloway made gifts to relatives which amounted to \$100,000. Mr. Alloway died on February 2.

Mrs. Alloway, who died in November, 1926, left her estate, valued at \$732,881, to the Foundation. The gifts of Mr. and Mrs. Alloway to the Foundation now total \$200,000.

Seeking Speed Record
British Racing Motorist Aims At 250 Miles An Hour

Southampton, England.—The noted British racing motorist, Kaye Don, said on the "Berengaria" for New York, en route to Daytona, Fla., where he will attempt to set a new speed record with his secretly constructed "Silver Bullet" machine. "I have every confidence in my car," he said before sailing. "I hope within a month to establish a mark which—with a little luck—may be 250 miles an hour."

Royal York Addition
Outlined in above cut is shown the addition of 160 rooms to the Royal York Hotel, which even before this enlargement was the largest and tallest in the British Empire. It brings the total number of special suites in the hotel from 62 to 68 and increases the number of rooms to 1,164. The addition rises twenty-one stories above the mezzanine floor bringing it into conformity with the height of the rest of the building, except, of course, the tower.

The new wing will be ready for occupation by June, in time for the monster Shriners' convention slated to be held at the Royal York and to accommodate which a town of sleeping cars and marquees, entitled "Fer City," will be erected by the Canadian Pacific Railway.

MARKS IMPORTANT DISCOVERY
Dr. J. B. Collip, chairman of the Department of Bio-chemistry, at McGill University, and co-worker with Dr. F. G. Banting, in discovery of insulin, who has succeeded in isolating a gland extract of great value in relieving certain disorders.

Safeguard Canadian Wheat
Proposes To Export Wheat Going Into United States

Ottawa.—With the view to preventing the mixing of Canadian wheat exported through United States ports, J. G. Ross, (Liberal, Moose Jaw), presented a resolution in the House of Commons calling for a tax of 10 cents per bushel to be paid when the wheat enters the United States, and related when exported from an American port. The tax, he suggested, might be paid either in cash or by filing a bond and the rebate would be conditional upon the wheat being up to Canadian standards on leaving the United States.

There was no doubt, Mr. Ross contended, that mixing Canadian wheat with American wheat and with lower grades was being carried on in the United States. He wanted some provision to safeguard the value of the Canadian certificates issued by the board of grain commissioners. This could only be done by inspection at the time the wheat left the United States.

Furthermore, he said, the measure would tend to place Canadian ports in a better competitive position. Restrictions now placed on the handling in Canada with the effect of discriminating against Canadian wheat, he said, would be removed. The resolution was finally withdrawn, but will come up again in the agricultural committee.

Well Known In Canada
Cardinal Merry del Val Dies At Vatican After Operation

Rome.—Cardinal Merry del Val, former papal secretary of state and in recent years archbishop of St. Peter's, died from heart failure after an operation for appendicitis.

Cardinal Merry del Val was secretary of state under Pope Pius X. He was particularly well known in Canada, as the Grey Sisters of Canada, Cardinal Merry del Val was one of the most distinguished figures in the modern history of the papacy. He was made a cardinal in 1903 at the comparatively early age of 38 and forthwith was created secretary of state to Pope Pius X.

The cardinal was of noble Spanish birth. His father was Spanish ambassador to the court of St. James when the future cardinal was born in London, in 1866.

CONFERENCE ON ARMAMENTS WILL BE CONTINUED
London, England.—Premier MacDonald, questioned in the House of Commons whether he expected to arrive at any international agreement for naval disarmament, replied emphatically, "certainly."

The premier told questioners that the policy of the British Government at the naval conference looked to the eventual disappearance of battleships. The premier, in his retort, of the British stand, added, however, that this aim would have to be attained by international agreement. "We cannot go one pound of avoirdupois beyond what the other powers are prepared to do," he said.

London.—Pending, return of the French delegation to the five-power naval conference, representatives of Great Britain, Japan and the United States will continue their preliminary talks with differences between their governments in which France is least interested.

Between the United States and Great Britain there is still outstanding the matter of the United States claim for the right to build a new submarine-dreadnaught such as the British "Hood," as a means of bringing parity to the fleet, and a principle already agreed upon.

Any conclusion reached will be tentative, it is anticipated, since there is no desire to present a returning French delegation with a fait accompli of the form on an Anglo-Japanese agreement, and since, it is stated, the goal of the conference remains a five-power treaty not a three-power pact.

Decision of the delegation chiefs to continue the conference with its activities of course greatly limited through the school seven days ago, their return, had the effect of heartening the delegations and creating a better atmosphere than has prevailed in the French chamber.

Another ten days or two weeks without the French was expected here. "The war," it was said here, no assurance M. Tardieu would be able to solve the Paris crisis satisfactorily. In such cases, the situation would be rendered more difficult than ever, with no clearly outlined majority grouping possible in the French chamber.

Compulsory Pool Plan Meets With Approval
Saskatoon.—Farmers of Saskatchewan—Canada's greatest wheat-growing province—went on record as favoring compulsory pooling of commodity after long hours of debate presented by the board of directors.

By resolution, directors of the farm board are ordered to "stand firm" with the Wheat Pool board of directors or the directors of any other pool in requesting that the board be placed in the status of Saskatchewan as an agent known as the Primary Products Act, whereby the growers of any commodity may obtain control of the marketing of all that commodity grown in the province.

Only three dissenting votes marked unanimity of support according to the statement of the publicity committee, given out after the convention had made its decision behind closed doors. The approved resolutions stated that it is expedient that producers should be able at all times to express their opinion on and obtain, if they so desire, 100 per cent. commodity marketing control of all of any primary product.

Details of the manner in which the proposed Primary Products Act was worded are not contained in the finally-carried resolution. The details, it specifies, are to be dealt with by a committee appointed from and by the boards of the United Farmers of Canada, and the Commodity Pool concerned. A board resolution published in the Delegation Handbook, outlining possible legislation, was not given approval.

According to this resolution, later substituted in the convention, petition by one-fifth of the producers of any commodity would bring a government plebiscite among such producers as to whether they desired compulsory pooling. Should the vote result in two-thirds of the vote cast favor law-enforced 100 per cent. pooling, the commodity would be declared a commodity under the Primary Products Act. At a date set by the government, commodity producers would elect delegates or directors to control marketing of the commodity in question.

While no specific product is mentioned in the approved resolution, it is generally considered that first compulsory pool activity will be toward marketing all grain grown in Saskatchewan through the wheat pool. Directors of the United Farmers of Canada, and the U.F.C. directors must "stand ready to act," have declared no definite stand. President A. J. McPhail has spoken against the compulsory pool, but L. C. Breault, vice-president, is an avowed adherent.

Formation of a compulsory wheat pool in Saskatchewan—where, of course, would have to be preceded by legislation and by two-thirds vote of the province's wheat producers—would mean that some 60 per cent. of the wheat crop would be handled by the Saskatchewan pool. In the 1928-29 season, the Canadian Pools handled 253,000,000 bushels of wheat to Canada, a crop of 547,000,000 bushels—and of the pool total some 157,000,000 bushels were raised in Saskatchewan.

A new type of cactus has been found in South America with long slender leaves resembling snakes.

Regrets Illegal Seizure
Washington, D.C.—The United States has expressed its regrets to Canada for illegal seizure of the motor boat 210-P in the St. Claire River last September. The seizure took place in Canadian waters.

Most Important Discovery
Dr. J. B. Collip, chairman of the Department of Bio-chemistry, at McGill University, and co-worker with Dr. F. G. Banting, in discovery of insulin, who has succeeded in isolating a gland extract of great value in relieving certain disorders.

Compulsory Pool Plan Meets With Approval
Saskatoon.—Farmers of Saskatchewan—Canada's greatest wheat-growing province—went on record as favoring compulsory pooling of commodity after long hours of debate presented by the board of directors.

By resolution, directors of the farm board are ordered to "stand firm" with the Wheat Pool board of directors or the directors of any other pool in requesting that the board be placed in the status of Saskatchewan as an agent known as the Primary Products Act, whereby the growers of any commodity may obtain control of the marketing of all that commodity grown in the province.

Only three dissenting votes marked unanimity of support according to the statement of the publicity committee, given out after the convention had made its decision behind closed doors. The approved resolutions stated that it is expedient that producers should be able at all times to express their opinion on and obtain, if they so desire, 100 per cent. commodity marketing control of all of any primary product.

Details of the manner in which the proposed Primary Products Act was worded are not contained in the finally-carried resolution. The details, it specifies, are to be dealt with by a committee appointed from and by the boards of the United Farmers of Canada, and the Commodity Pool concerned. A board resolution published in the Delegation Handbook, outlining possible legislation, was not given approval.

According to this resolution, later substituted in the convention, petition by one-fifth of the producers of any commodity would bring a government plebiscite among such producers as to whether they desired compulsory pooling. Should the vote result in two-thirds of the vote cast favor law-enforced 100 per cent. pooling, the commodity would be declared a commodity under the Primary Products Act. At a date set by the government, commodity producers would elect delegates or directors to control marketing of the commodity in question.

While no specific product is mentioned in the approved resolution, it is generally considered that first compulsory pool activity will be toward marketing all grain grown in Saskatchewan through the wheat pool. Directors of the United Farmers of Canada, and the U.F.C. directors must "stand ready to act," have declared no definite stand. President A. J. McPhail has spoken against the compulsory pool, but L. C. Breault, vice-president, is an avowed adherent.

Formation of a compulsory wheat pool in Saskatchewan—where, of course, would have to be preceded by legislation and by two-thirds vote of the province's wheat producers—would mean that some 60 per cent. of the wheat crop would be handled by the Saskatchewan pool. In the 1928-29 season, the Canadian Pools handled 253,000,000 bushels of wheat to Canada, a crop of 547,000,000 bushels—and of the pool total some 157,000,000 bushels were raised in Saskatchewan.

A new type of cactus has been found in South America with long slender leaves resembling snakes.

Regrets Illegal Seizure
Washington, D.C.—The United States has expressed its regrets to Canada for illegal seizure of the motor boat 210-P in the St. Claire River last September. The seizure took place in Canadian waters.

Safeguard Canadian Wheat
Proposes To Export Wheat Going Into United States

Ottawa.—With the view to preventing the mixing of Canadian wheat exported through United States ports, J. G. Ross, (Liberal, Moose Jaw), presented a resolution in the House of Commons calling for a tax of 10 cents per bushel to be paid when the wheat enters the United States, and related when exported from an American port. If you will dip your clothes in hot water just before using them, they will hold the clothes to the line much better. Blankets or beddings being aired on the line may be held tightly in this way.

You know, of course, the prominent part the power take-off is playing these days, driving blenders, saws, etc., but do you know that Mr. Deering were the first tractor to be equipped with this highly useful and valuable device? On them it is not an attachment—as afterthought—but was provided for in the drafting room before first experimental machines were built, and every Mc-Dry tractor, old or new, has facilities for attaching a power take-off, right!

"Good Equipment Makes a Good Farmer Better."

where a take-off is hitched, turning, etc., and at no extra cost to you.

Mr. and Mrs. O. Castor have returned from an extended trip to the States and report a pleasant time and say they are glad to get back.

Say folks don't take a chance on smutty wheat when you can insure against it with copper carbonate dusting. The methods of treating recommended by all experimental farms.

Copper carbonate at 10c per pound will treat 10 bushels of grain. Treaters at \$80.00 will treat to 50 bushels a hour.

Dorothy was a Blossom in No. 20 sweater given to her. But then she went away to school. She's wild, wild flower now.

Our esteemed friend, neighbor and opponent, R. Tyler is confined to his bed. He's hoping you have a power take-off, right!

spend recoupy 10th. The real trouble with the youth of today is that they were out most of last night.

To the vast army of silent men, and women who have bravely borne the brunt of these quips throughout this paper history I solemnly dedicate this column to the proposition that of all humans, farmers get the most good out of life and do the fellow good for their fellow beings. And admit that it's "A Strenuous Life."

Harry Smith has taken out a new 2250 H.P. Mc-Dry tractor. Move power and better results Harry.

"A Strenuous Life"

Not if you buy an OLIVER SUPERIOR DRILL you will have a friend for life.

If you want a plow that will jump right in and turn over a large amount of ground each day buy an OLIVER No. 410, four-bottom 16 in. Gang Plow, built strong and sturdy; beams and beam braces of flat bar, heat tested steel, and to insure perfect alignment at all times, a heavy steel bar set on edge running diagonally across the frame, is firmly clamped to each beam.

Bottoms that scour readily and bury all trash; simple, positive, and quick acting power lift; sturdy strong wheels with wide tires to permit working under all conditions.

Also OLIVER No. 318, three furrow 18 in. bottom Gang Plows.

If you buy OLIVER machinery you get your service from your dealer with warehouses in both Lethbridge and Calgary to draw from.

Don't forget the Play—March 12th
